Listing of Claims

The following listing of claims will replace all prior versions, and listings, of claims in the subject application:

- 1. (currently amended) A surface protective sheet having an anti-ultraviolet layer on at least one surface of a plastic film, wherein the anti-ultraviolet layer comprises at least an ionizing radiation curable resin composition, an ultraviolet absorber and spherical microparticles having a mean particle diameter of 1 to 20 μ m, and the microparticles are contained in an amount of 0.4 to 3% by weight in the anti-ultraviolet layer when the layer has been cured, and the ultraviolet absorber is an absorber having a formula weight of 200 to 400, and the content of the ultraviolet absorber is 5 to 15 [[20]] parts by weight based on 100 parts by weight of the ionizing radiation curable resin composition following curing.
- 2. (currently amended) The surface protective sheet according to claim 1, wherein the anti-ultraviolet layer contains 0.01 to 1% by weight of an organopolysiloxane, when the layer has been cured.
- 3. (previously presented) The surface protective sheet according to claim 1, wherein the thickness of the anti-ultraviolet layer is 20 to 80% of the mean particle diameter of the microparticles.

Claim 4 (Canceled).

Keiichi KITAHARA et al., Application No. 10/594,255 Page 3

5. (previously presented) The surface protective sheet according to claim 2, wherein the thickness of the anti-ultraviolet layer is 20 to 80% of the mean particle diameter of the microparticles.

Dkt. 5048/76889

Claims 6 and 7 (Canceled).

- 8. (currently amended) The surface protective sheet according to claim 1, wherein the ultraviolet absorber includes at least one of benzophenone <u>based</u> [[type]] compounds and <u>benzotriazole type compounds</u>.
- 9. (currently amended) The surface protective sheet according to claim 2, wherein the ultraviolet absorber includes at least one of benzophenone <u>based</u> [[type]] compounds and <u>benzotriazole type compounds</u>.
- 10. (currently amended) The surface protective sheet according to claim 3, wherein the ultraviolet absorber includes at least one of benzophenone <u>based</u> [[type]] compounds and <u>benzotriazole type compounds</u>.
- 11. (previously presented) The surface protective sheet according to claim 1, wherein the spherical microparticles include silica.
- 12. (previously presented) The surface protective sheet according to claim 2, wherein the spherical microparticles include silica.

- 13. (previously presented) The surface protective sheet according to claim 3, wherein the spherical microparticles include silica.
- 14. (new) The surface protective sheet according to claim 1, wherein the ultraviolet absorber includes benzotriazole based compounds.
- 15. (new) The surface protective sheet according to claim 2, wherein the ultraviolet absorber includes benzotriazole based compounds.
- 16. (new) The surface protective sheet according to claim 3, wherein the ultraviolet absorber includes benzotriazole based compounds.
